Journal of PHOTOCHEMISTRY AND PHOTOBIOLOGY A:CHEMISTRY

Subject Index of Volume 98

Aberchrome 540
  new aspects in the photokinetics of Aberchrome 540, 45
Acetaldehyde degradations
  an efficient TiO_2 thin-film photocatalyst: photocatalytic properties in gas-phase acetaldehyde degradation, 79
Active photocatalyst
  an efficient TiO_2 thin-film photocatalyst: photocatalytic properties in gas-phase acetaldehyde degradation, 79
Adiabatic photoreaction
  catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117
Adsorption
  concerning the role of oxygen in photocatalytic decomposition of salicylic acid in water, 165
Advanced oxidation process
  supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103
Anionic micelles
  interaction of ketocyanine dyes with cationic, anionic and neutral micelles, 183
Asymmetric photocatalysis
  extremely high stereoselectivity of novel helical ruthenium(II) complexes for photoinduced reduction of racemic-$[Co(acac)_3]$ (Hacac = pentane-2,4-dione), 137
Azidocyanochromate
  ligand field photochemistry of mixed-ligand cyanochromates. Comparative study of $[Cr(CN)_5(OH)]^{3-}$ and $[Cr(CN)_4(N_3)(OH)]$, 149

Bacteriochlorophyll *c*
  electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
Behaviour
  photochemical behaviour of 2,6-dimethylbenzoquinone in the absence and in the presence of iron(III), 141
Bleaching
  new aspects in the photokinetics of Aberchrome 540, 45

C_{60}
  photophysical studies on solid C_{60} using diffuse reflectance laser flash photolysis (DRLFP), 127
Carbon dioxide
  effect of CO_2 pressure on photocatalytic reduction of CO_2 using TiO_2 in aqueous solutions, 87
Carotenes
  red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
Cationic micelles
  interaction of ketocyanine dyes with cationic, anionic and neutral micelles, 183
Chlorophyll
  red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
Chlorophyll *a*
  electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
Chlorophyll *b*
  electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
cis–trans photoisomerization
  catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117
Complex compounds
  decrease in the yield of photoionization of hexacyanoferrate(II) ions condensed onto partially protonated poly(ethylene imine), 155
Conductivity
  concerning the role of oxygen in photocatalytic decomposition of salicylic acid in water, 165
Conformational dynamics
  suppression of the harpooning mechanism in donor–bridge–acceptor systems by aza substitution in the bridge, 121

Diffusion
  photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1
2,6-Dimethylbenzoquinone
  photochemical behaviour of 2,6-dimethylbenzoquinone in the absence and in the presence of iron(III), 141
Donor–acceptor systems
  dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15

Electrochemical cell
  electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
Electron transfer
  photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1
  dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15
Emission solvatochromic
  suppression of the harpooning mechanism in donor–bridge–acceptor systems by aza substitution in the bridge, 121
Energy transfer
  photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1
  catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117
ESR
  mechanisms and structures of free radicals in the photoreaction processes of *o*-substituted nitrobenzaldehydes, 21
Ethyleneglycol
  a mechanistic study of the photoelectrochemical oxidation of organic compounds on a TiO_2/TCO particulate film electrode assembly, 73

Elsevier Science S.A.

Excited state carbon acids
excited state carbon acids. Photodeprotonation and photoreduction of suberenes by amines, 27
Excited states
dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15

Fluorescence
dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15
Fullerene
photophysical studies on solid C_{60} using diffuse reflectance laser flash photolysis (DRLFP), 127

Halomethane media
photochemical and sonochemical reactions of norharmane, 39
Helical ruthenium(II) complex
extremely high stereoselectivity of novel helical ruthenium(II) complexes for photoinduced reduction of racemic-$[Co(acac)_3]$ (Hacac = pentane-2,4-dione), 137
Hydrophobic surface
supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103

Intramolecular charge transfer
dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15
Intramolecular charge-transfer states
suppression of the harpooning mechanism in donor–bridge–acceptor systems by aza substitution in the bridge, 121
Ion condensation
decrease in the yield of photoionization of hexacyanoferrate(II) ions condensed onto partially protonated poly(ethylene imine), 155
Iron-doped titania
photocatalytic properties of iron-doped titania semiconductors, 171
Iron(III)
photochemical behaviour of 2,6-dimethylbenzoquinone in the absence and in the presence of iron(III), 141
Irradiation
new aspects in the photokinetics of Aberchrome 540, 45

Ketocyanine dyes
interaction of ketocyanine dyes with cationic, anionic and neutral micelles, 183

LF photochemistry
ligand field photochemistry of mixed-ligand cyanochromates. Comparative study of $[Cr(CN)_5(OH)]^{3-}$ and $[Cr(CN)_4(N_3)(OH)]$, 149

Metal oxides
concerning the role of oxygen in photocatalytic decomposition of salicylic acid in water, 165
photocatalytic properties of iron-doped titania semiconductors, 171
Mixed ligand cyanochromates
ligand field photochemistry of mixed-ligand cyanochromates. Comparative study of $[Cr(CN)_5(OH)]^{3-}$ and $[Cr(CN)_4(N_3)(OH)]$, 149
Monte Carlo method
photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1

Nematic liquid crystal
electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
Neutral micelles
interaction of ketocyanine dyes with cationic, anionic and neutral micelles, 183
Nitroxyl free radical
mechanisms and structures of free radicals in the photoreaction processes of *o*-substituted nitrobenzaldehydes, 21
Norharmane
photochemical and sonochemical reactions of norharmane, 39

o-Nitrobenzaldehyde
mechanisms and structures of free radicals in the photoreaction processes of *o*-substituted nitrobenzaldehydes, 21

Pentacyanohydroxochromate
ligand field photochemistry of mixed-ligand cyanochromates. Comparative study of $[Cr(CN)_5(OH)]^{3-}$ and $[Cr(CN)_4(N_3)(OH)]$, 149
2-Phenoxyethanol
a mechanistic study of the photoelectrochemical oxidation of organic compounds on a TiO_2/TCO particulate film electrode assembly, 73
Photocatalysis
supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103
catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117
photocatalytic properties of iron-doped titania semiconductors, 171
Photocatalytic decomposition
concerning the role of oxygen in photocatalytic decomposition of salicylic acid in water, 165
Photocatalytic reduction
effect of CO_2 pressure on photocatalytic reduction of CO_2 using TiO_2 in aqueous solutions, 87
Photochemically induced electron transfer
photochemically induced electron transfer between sulfur dioxide and tin(IV) mono- and di-phthalocyanines, 129
Photochemistry
photochemical and sonochemical reactions of norharmane, 39
Photocurrent
electrochemical cell with bacteriochlorophyll *c* and chlorophylls *a* and *b* in nematic liquid crystal, 159
Photodegradation
red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
Photoelectrochemical oxidation
a mechanistic study of the photoelectrochemical oxidation of organic compounds on a TiO_2/TCO particulate film electrode assembly, 73
Photoinduced electron transfer
suppression of the harpooning mechanism in donor–bridge–acceptor systems by aza substitution in the bridge, 121
Photoinduced kinetic resolution
extremely high stereoselectivity of novel helical ruthenium(II) complexes for photoinduced reduction of racemic-$[Co(acac)_3]$ (Hacac = pentane-2,4-dione), 137
Photoionization
decrease in the yield of photoionization of hexacyanoferrate(II) ions condensed onto partially protonated poly(ethylene imine), 155
Photokinetics
new aspects in the photokinetics of Aberchrome 540, 45
Photolysis
photochemically induced electron transfer between sulfur dioxide and tin(IV) mono- and di-phthalocyanines, 129
Photophysical properties
spectroscopic and photophysical properties of some new rhodamine derivatives in cationic, anionic and neutral micelles, 65

Photoprotection
red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
Photoreaction
mechanisms and structures of free radicals in the photoreaction processes of *o*-substituted nitrobenzaldehydes, 21
Photoreduction
excited state carbon acids. Photodeprotonation and photoreduction of suberenes by amines, 27
Photosensitization
red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
Photosubstitution
ligand field photochemistry of mixed-ligand cyanochromates. Comparative study of $[Cr(CN)_5(OH)]^{3-}$ and $[Cr(CN)_4(N_3)(OH)]$, 149
Photosynthesis
red-light-induced photoreactions of chlorophyll a mixtures with all-*trans*- or 9-*cis*-β-carotene, 51
synthesis and characterization of water soluble viologen linked zinc porphyrins, 59
Polyelectrolytes
decrease in the yield of photoionization of hexacyanoferrate(II) ions condensed onto partially protonated poly(ethylene imine), 155
Pressure
effect of CO_2 pressure on photocatalytic reduction of CO_2 using TiO_2 in aqueous solutions, 87
Proton transfer
excited state carbon acids. Photodeprotonation and photoreduction of suberenes by amines, 27

Quantum chain process
catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117

Restricted geometry
photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1
Rhodamine dye
spectroscopic and photophysical properties of some new rhodamine derivatives in cationic, anionic and neutral micelles, 65

Salicylic acid
concerning the role of oxygen in photocatalytic decomposition of salicylic acid in water, 165
Secondary dark reactants
acceleration of secondary dark reactions of intermediates derived from adsorbed dyes on irradiated TiO_2 powders, 91
Semiconductors
photocatalytic properties of iron-doped titania semiconductors, 171
Silica gel
supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103
Sodium benzenesulfonate
a mechanistic study of the photoelectrochemical oxidation of organic compounds on a TiO_2/TCO particulate film electrode assembly, 73
Solid
photophysical studies on solid C_{60} using diffuse reflectance laser flash photolysis (DRLFP), 127
Solvent effects
dual fluorescence and intramolecular charge transfer in a bulky electron donor-acceptor system. *N,N*-Dimethylanilino-bis-pyrazolopyridine, 15
suppression of the harpooning mechanism in donor–bridge–acceptor systems by aza substitution in the bridge, 121
Sonochemistry
photochemical and sonochemical reactions of norharmane, 39
Spectroscopic properties
spectroscopic and photophysical properties of some new rhodamine derivatives in cationic, anionic and neutral micelles, 65
Stereoselective photoreduction
extremely high stereoselectivity of novel helical ruthenium(II) complexes for photoinduced reduction of racemic-$[Co(acac)_3]$ (Hacac = pentane-2,4-dione), 137
Sulphur dioxide
photochemically induced electron transfer between sulfur dioxide and tin(IV) mono- and di-phthalocyanines, 129

Tin diphthalocyanine
photochemically induced electron transfer between sulfur dioxide and tin(IV) mono- and di-phthalocyanines, 129
TiO_2
acceleration of secondary dark reactions of intermediates derived from adsorbed dyes on irradiated TiO_2 powders, 91
TiO_2/TOC electrode
a mechanistic study of the photoelectrochemical oxidation of organic compounds on a TiO_2/TCO particulate film electrode assembly, 73
TiO_2 film
an efficient TiO_2 thin-film photocatalyst: photocatalytic properties in gas-phase acetaldehyde degradation, 79
Titanium dioxide
effect of CO_2 pressure on photocatalytic reduction of CO_2 using TiO_2 in aqueous solutions, 87
supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103
Transient
photophysical studies on solid C_{60} using diffuse reflectance laser flash photolysis (DRLFP), 127
Triplet state
catalysis of a photochemical reaction; a *cis–trans* isomerization proceeding by a quantum chain process, 117
Triplet–triplet annihilation
photochemical reactions on the surface of a circular disk: a theoretical approach to kinetics in restricted two-dimensional space, 1

Viologen
synthesis and characterization of water soluble viologen linked zinc porphyrins, 59
Viologen linked zinc porphyrins
synthesis and characterization of water soluble viologen linked zinc porphyrins, 59

Wastewater treatment
supporting titanium dioxide photocatalysts on silica gel and hydrophobically modified silica gel, 103
